# 2023-2024
Tech/TV Connection
How to for classrooms

Connection for classes without zoom

No real changes from last year but used with second monitor

Second Monitor

HDMI

Whiteboard Pens (USB)

The sound setting can be kept on epson projector if owl is not in use.
Connection for classes with Zoom students using TV

You will use the TV as a second monitor to show zoom students

Owl Camera

HDMI connection and Dell box cord connection
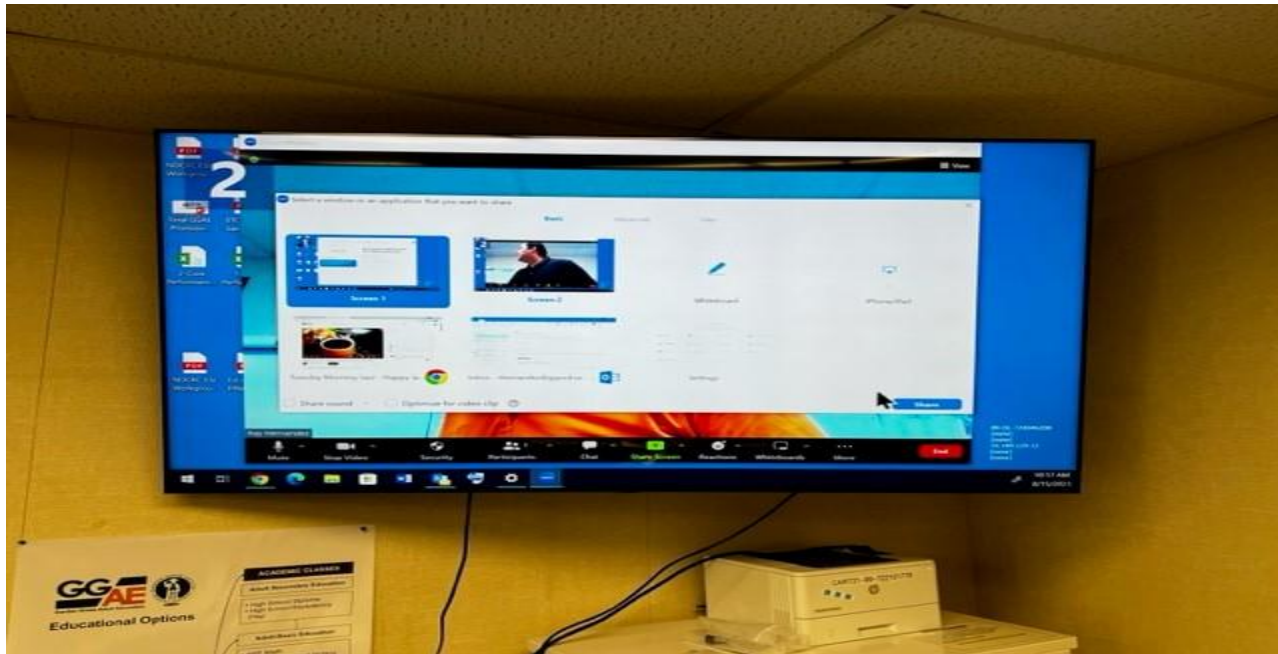

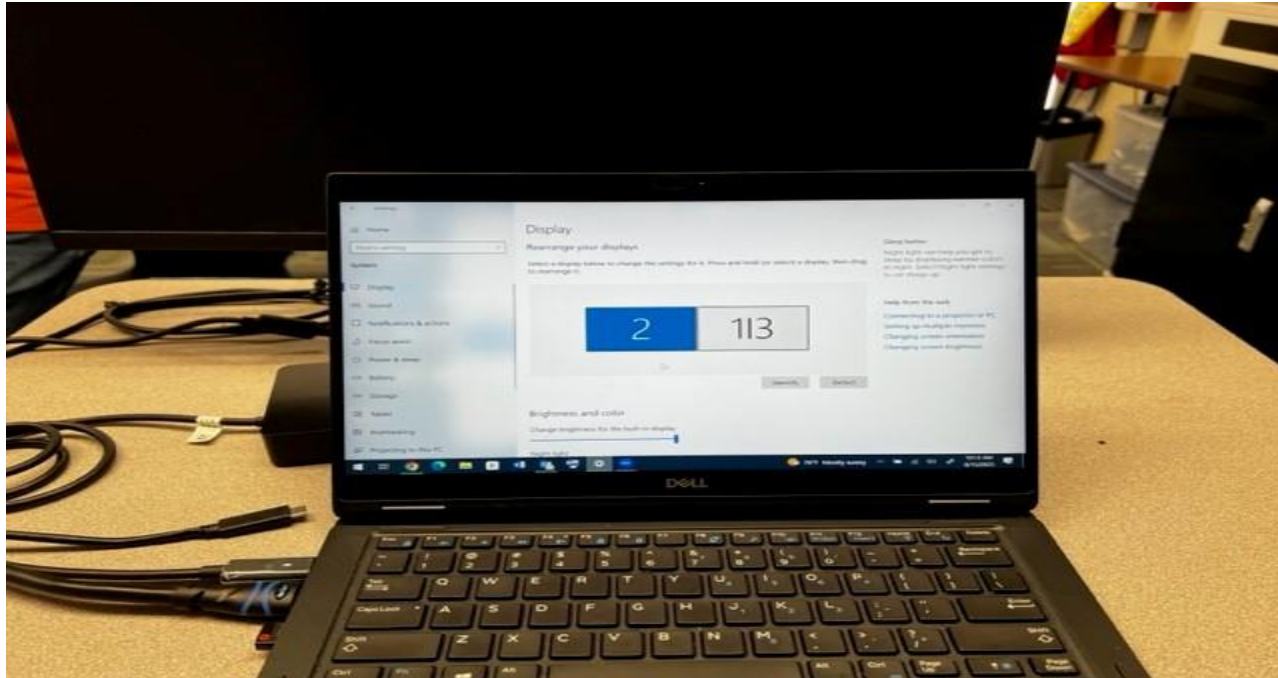

White pen cord and owl camera cord underneath

TV is now monitor #2

Source should be on PC (use Samsung control)

Go to settings, system, display to adjust monitor placement (left or right)
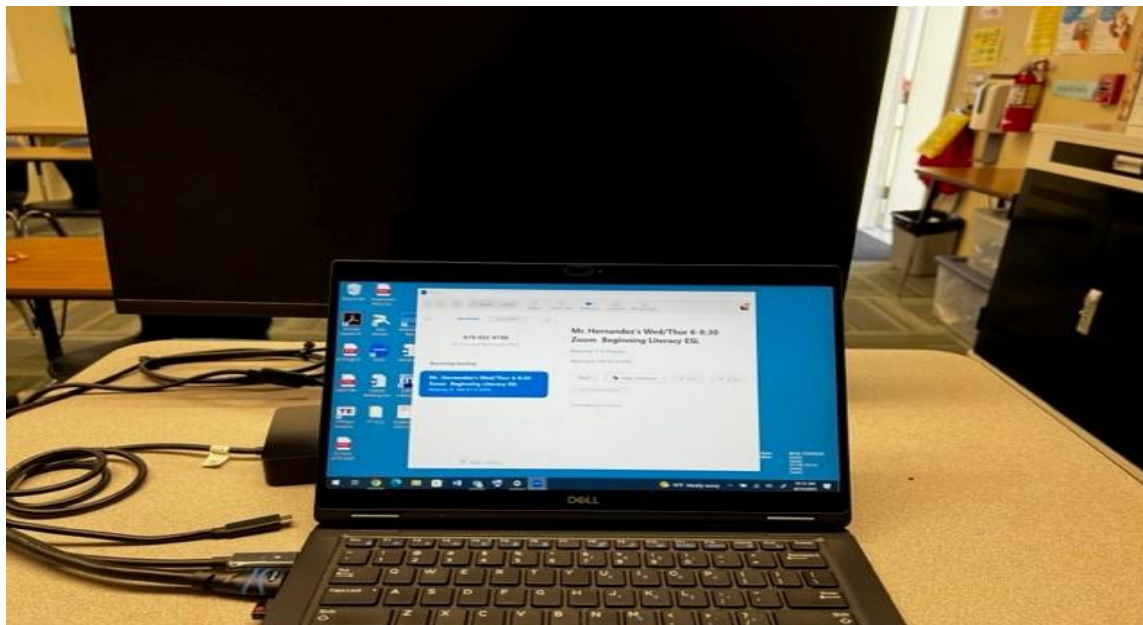

Adjust mouse pointer and change color

Go to settings, devices, mouse,

On the right side of screen

Click on adjust mouse and cursor

size

Star zoom on monitor 1

Start zoom on monitor 1

Make adjustments before dragging image to second monitor

Share screen 1, check share sound, then share

Adjust zoom to fill TV monitor by dragging

Final results

Pens should work using

annotation tools while zooming

In person students interact with zoom students
